Background

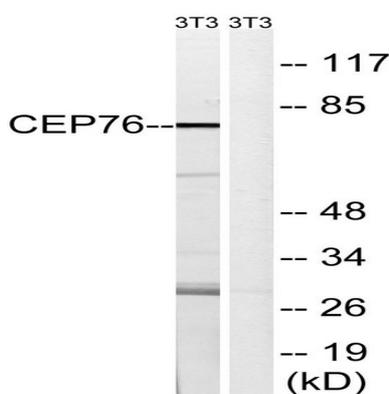

Product Name: CEP76 Rabbit Polyclonal Antibody
Catalog #: APRab08673

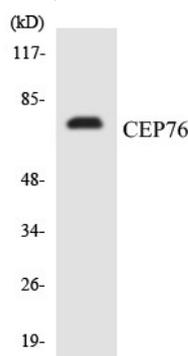

This gene encodes a centrosomal protein which regulates centriole amplification by limiting centriole duplication to once per cell cycle. Alternative splicing results in multiple transcript variants. [provided by RefSeq, Dec 2012],regulation of cell cycle process, regulation of centrosome duplication, regulation of microtubule-based process,regulation of organelle organization, regulation of centriole replication, regulation of centrosome cycle, regulation of cytoskeleton organization, regulation of cell cycle, regulation of microtubule cytoskeleton organization,
