

Catalog #: APRab17190

Summary

Ribosomal Protein S8 Rabbit Polyclonal Antibody **Production Name**

Description Rabbit Polyclonal Antibody

Rabbit Host **Application** WB,ELISA

Reactivity Human, Mouse, Rat

Performance

Conjugation Unconjugated Modification Unmodified

IgG Isotype

Clonality Polyclonal **Form** Liquid

Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw Storage

cycles.

Buffer Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% New type preservative N.

Purification Affinity purification

Immunogen

Gene Name RPS8

Alternative Names RPS8; OK/SW-cl.83; 40S ribosomal protein S8

Gene ID 6202.0

P62241. The antiserum was produced against synthesized peptide derived from human **SwissProt ID**

RPS8. AA range:111-160

Application

Dilution Ratio WB 1:500 - 1:2000. ELISA: 1:20000...

Molecular Weight 30kD

Product Name: Ribosomal Protein S8 Rabbit Polyclonal

Antibody

Catalog #: APRab17190

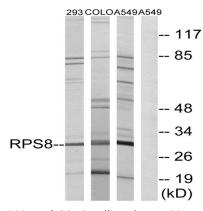

Background

Ribosomes, the organelles that catalyze protein synthesis, consist of a small 40S subunit and a large 60S subunit. Together these subunits are composed of 4 RNA species and approximately 80 structurally distinct proteins. This gene encodes a ribosomal protein that is a component of the 40S subunit. The protein belongs to the S8E family of ribosomal proteins. It is located in the cytoplasm. Increased expression of this gene in colorectal tumors and colon polyps compared to matched normal colonic mucosa has been observed. This gene is co-transcribed with the small nucleolar RNA genes U38A, U38B, U39, and U40, which are located in its fourth, fifth, first, and second introns, respectively. As is typical for genes encoding ribosomal proteins, there are multiple processed pseudogenes of this gene dispersed through the genome. [provided by RefSeq, Jul 2008],similarity:Belongs to the ribosomal protein S8e family.,

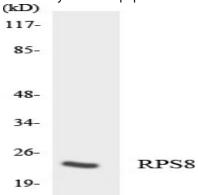

Research Area

Ribosome;

Image Data

Western blot analysis of lysates from A549, 293, and COLO cells, using RPS8 Antibody. The lane on the right is blocked with the synthesized peptide.

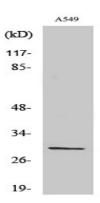

Western blot analysis of the lysates from Jurkat cells using RPS8 antibody.
