

**Product Name: Anti-Human PDGFRB/CD140B (Rinucumab Biosimilar)(RUO)**

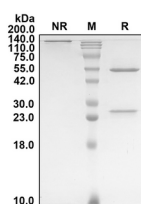

**Catalog #: ABS00610**

For research use only.

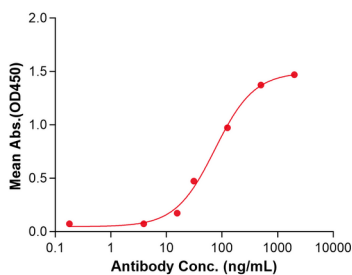

## Summary

|                        |                                                                             |
|------------------------|-----------------------------------------------------------------------------|
| <b>Description</b>     | Biosimilar Reference Antibody                                               |
| <b>Cas.No</b>          | 1569263-06-4                                                                |
| <b>Source</b>          | Genetically human                                                           |
| <b>Application</b>     | Elisa,FC,Functional assays in vivo                                          |
| <b>Reactivity</b>      | Human                                                                       |
| <b>Conjugation</b>     | Unconjugated                                                                |
| <b>Isotype</b>         | IgG4                                                                        |
| <b>Immunogen</b>       | Human PDGFRB/CD140B                                                         |
| <b>Purity</b>          | >98% by SDS-PAGE                                                            |
| <b>Endotoxin level</b> | <1.0 EU/mg as determined by LAL method                                      |
| <b>Form</b>            | Liquid                                                                      |
| <b>Storage</b>         | Aliquot and store at -20°C (valid for 12 months). Avoid freeze/thaw cycles. |
| <b>Shipping</b>        | Ice bags                                                                    |
| <b>Buffer</b>          | 0.01M PBS, pH 7.4                                                           |

## Image Data

Anti-Human PDGFRB/CD140B (Rinucumab Biosimilar)(ABS00610) on SDS-PAGE under non-reducing (NR) and reducing (R) condition.

ELISA plate pre-coated Antigen protein, can bind Rinucumab biosimilar in a linear range of 31.25–125 ng/mL.
