Product Name: Recombinant Human Stratifin

Catalog #: PEH2052

Summary

Name Stratifin/14-3-3 Protein Sigma/Epithelial Cell Marker Protein 1/SFN/HME1

Purity Greater than 95% as determined by reducing SDS-PAGE

Endotoxin level <1 EU/μg as determined by LAL test.

Construction Recombinant Human Stratifin is produced by our E.coli expression system

and the target gene encoding Met1-Ser248 is expressed.

Accession # P31947

Host E.coli

Species Human

Predicted Molecular Mass 27.77 KDa

Formulation Lyophilized from a 0.2 µm filtered solution of 20mM PB, 250mM NaCl, 1mM EDTA,

1mM DTT, pH 7.4.

Shipping The product is shipped at ambient temperature. Upon receipt, store it

immediately at the temperature listed below.

Stability&Storage Store at \leq -70°C, stable for 6 months after receipt. Store at \leq -70°C, stable for 3

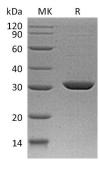

months under sterile conditions after opening. Please minimize freeze-thaw

cycles.

Reconstitution Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is

not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Background

Product Name: Recombinant Human Stratifin Catalog #: PEH2052

Alternative Names 14-3-3 Protein Sigma; Epithelial Cell Marker Protein 1; Stratifin; SFN; HME1

Background

Stratifin (SFN) belongs to the 14-3-3 family of proteins that act as important regulators of intracelluar signal transduction through their ability to bind specific motifs phosphorylated on serine or threonine. There are at least seven isoforms that have been identified in mammals (beta, gamma, epsilon, sigma, zeta, tau and eta). SFN can detected in many tissues, highly expressed in stratified squamous keratinizing epithelium. SFN is indicated as an epithelial cell marker and serves as a tumor suppressor whose expression can be down regulated by methylation. In addition, SFN plays a key role in maintaining the G2 checkpoint in cells and preventing mitotic death.

Note

For Research Use Only, Not for Diagnostic Use.
