

Product Name: Recombinant Mouse S100A11 (N-6His)
Catalog #: PEM1453

Summary

Name	S100A11
Purity	Greater than 95% as determined by reducing SDS-PAGE
Endotoxin level	<1 EU/μg as determined by LAL test.
Construction	Recombinant Mouse Protein S100-A11 is produced by our E.coli expression system and the target gene encoding Met1-Ile98 is expressed with a 6His tag at the N-terminus.
Accession #	P50543
Host	E.coli
Species	Mouse
Predicted Molecular Mass	12.6 KDa
Formulation	Lyophilized from a 0.2 μm filtered solution of PBS, pH 7.4.
Shipping	The product is shipped at ambient temperature. Upon receipt, store it immediately at the temperature listed below.
Stability&Storage	Store at ≤-70°C, stable for 6 months after receipt. Store at ≤-70°C, stable for 3 months under sterile conditions after opening. Please minimize freeze-thaw cycles.
Reconstitution	Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100μg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles.

Background

Product Name: Recombinant Mouse S100A11 (N-6His)
Catalog #: PEM1453

Alternative Names

Protein S100-A11; Calgizzarin; Endothelial monocyte-activating polypeptide; EMAP; Protein S100-C; S100 calcium-binding protein A11; S100a11; S100c

Background

Protein S100-A11(S100A11) is a member of the S-100 family. S100A11 is widely expressed in multi tissues, and is located in cytoplasm, nucleus, and even cell periphery. S100A11 exists as a non-covalent homodimer with an antiparallel conformation. Ca(2+) binding to S100A11 would trigger conformational changes which would expose the hydrophobic cleft of S100A11 and facilitate its interaction with target proteins. As a dual cell growth mediator, S100A11 acts as either a tumor suppressor or promoter in many different types of tumors and would play respective roles in influencing the proliferation of the cancer cells. In the nucleus, S100A11 suppresses the growth of keratinocytes through p21 (CIP1/WAF1) activation and induces cell differentiation. S100A11 is also a novel diagnostic marker in breast carcinoma.
