Catalog #: PHH0885

Alternative Names

Interleukin-18 receptor accessory protein (IL18RAP); Accessory protein-like; CD218 antigen-like family member B; CDw218b; IL-1R accessory protein-like; Interleukin-1 receptor 7; Interleukin-18 receptor accessory protein-like; Interleukin-18 receptor beta£"CD218b and IL1R7.

Background

IL-18RAP is a single-pass type I membrane protein and contains two Ig-like C2-type domains and one TIR domain, IL18RAP can be induced by IFN-alpha and IL12 in nature killer cells and T-cells. The coexpression of IL18R1 and IL18RAP is required for the activation of NF-kappa B and JNK in response to IL-18. Defects in IL18RAP are associated with Coeliac disease.
