# Product Name: Recombinant Human MAN1B1 (C-6His) Enkilife Catalog #: PHH1129

### **Summary**

Name MAN1B1/Mannosidase alpha class 1B member 1

**Purity** Greater than 95% as determined by reducing SDS-PAGE

**Endotoxin level** <1 EU/µg as determined by LAL test.

Construction Recombinant Human Endoplasmic Reticulum Mannosyl-Oligosaccharide 1,2-

> α-Mannosidase/MAN1B1 is produced by our Mammalian expression system and the target gene encoding Asp106-Ala699 is expressed with a 6His tag at

the C-terminus.

Accession # O9UKM7

Host **Human Cells** 

**Species** Human

**Predicted Molecular Mass** 68.7 KDa

**Formulation** Supplied as a 0.2 µm filtered solution of 20 mM PB, 50 mM NaCl, 5% Sucrose, 5%

Mannitol, 0.05% Tween 80, pH8.0.

The product is shipped on dry ice/polar packs. Upon receipt, store it immediately Shipping

at the temperature listed below.

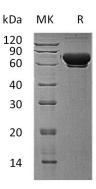

Stability&Storage Store at  $\leq$  -70°C, stable for 6 months after receipt. Store at  $\leq$  -70°C, stable for 3

months under sterile conditions after opening. Please minimize freeze-thaw

cycles.

# **Background**

Endoplasmic Reticulum Mannosyl-Oligosaccharide 1; 2-Alpha-Mannosidase; ER **Alternative Names** 

Alpha-1; 2-Mannosidase; ER Mannosidase 1; ERMan1; Man9GlcNAc2-Specific-

# Product Name: Recombinant Human MAN1B1 (C-6His) Catalog #: PHH1129

#### **Background**

Processing Alpha-Mannosidase; Mannosidase Alpha Class 1B Member 1; MAN1B1 Endoplasmic Reticulum Mannosyl-Oligosaccharide 1,2- $\alpha$ -Mannosidase (MAN1B1) belongs to the glycosyl hydrolase 47 family. MAB1B1 is a single-pass type II membrane protein and widely expressed in many tissues. MAB1B1 is involved in glycoprotein quality control targeting of misfolded glycoproteins for degradation. MAB1B1 can be inhibited by both 1-deoxymannojirimycin (dMNJ) and kifunensine. Defects in MAN1B1 are the cause of mental retardation autosomal recessive type 15 (MRT15). Mental retardation is characterized by significantly below average general intellectual functioning, it is also associated with impairments in adaptative behavior and manifested during the developmental period.
