Product Name: Recombinant Human CHGC (C-6His)

Catalog #: PHH1467

Summary

Name SCG2/Secretogranin-2

Purity Greater than 95% as determined by reducing SDS-PAGE

Endotoxin level <1 EU/µg as determined by LAL test.

Construction Recombinant Human Secretogranin-2/Chromogranin-C is produced by our

Mammalian expression system and the target gene encoding Ser29-Met617

is expressed with a 6His tag at the C-terminus.

Accession # AAH22509.1

Host **Human Cells**

Species Human

Predicted Molecular Mass 68.9 KDa

Lyophilized from a 0.2 µm filtered solution of 20mM PB, 150mM NaCl, pH 7.4. **Formulation**

Shipping The product is shipped at ambient temperature. Upon receipt, store it

immediately at the temperature listed below.

Store at ≤-70°C, stable for 6 months after receipt. Store at ≤-70°C, stable for 3 Stability&Storage

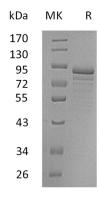

months under sterile conditions after opening. Please minimize freeze-thaw

cycles.

Reconstitution Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is

not recommended to reconstitute to a concentration less than 100µg/ml. Dissolve the lyophilized protein in distilled water. Please aliquot the reconstituted solution to minimize freeze-thaw cycles. Always centrifuge tubes before opening. Do not mix by vortex or pipetting. It is not recommended to reconstitute to a concentration less than 100µg/ml. Background

Alternative Names Secretogranin-2; Chromogranin-C; Secretogranin II; Sgll

Background Secretogranin-2 is also known as Chromogranin-C,Secretogranin II, Sgll. In

humans, it is encoded by the SCG2 gene.It belongs to the chromogranin/secretogranin protein family. Secretogranin-2 is a neuroendocrine secretory granule protein, which is the precursor for biologically active peptides. It derived secretoneurin was distributed with strong immunoreactivity in the somata of pelvic ganglion neurons,72% of which also contained tyrosine hydroxyldse,as well as in nerve terminals in the muscular layer and the lamina propria of the vas

deferens.
