

**Product Name: DASPEI (Mitochondrial
Fluorescent Probe)**
Catalog No.: RA20024

Basic Information

Product name	DASPEI (Mitochondrial Fluorescent Probe)
Size	100mg
Storage	4°C, away from light
Shipping	Shipped with ice pack
Validity	12 months
Ex/Em	461/589nm

Product Introduction

DASPEI is a styryl red fluorescent dye that stains mitochondria in living cells.

Appearance: Red solid soluble in DMSO

CAS No.: 3785-01-1

Molecular formula: C₁₇H₂₁IN₂

Molecular weight: 380.3 Da

Note

1. All fluorescent dyes have quenching problems. Please try to avoid light to slow down fluorescence quenching.
2. To avoid repeated freezing and thawing, this product can be divided into small quantities.
3. This product is For Research Use Only, Not for Diagnostic Use.
