
Product Name: Ribosomal Protein L10L Rabbit Polyclonal Antibody**Catalog #: APRab17144**

For research use only.

Summary

Description	Rabbit polyclonal Antibody
Host	Rabbit
Application	WB,IHC,ICC/IF,ELISA
Reactivity	Human,Monkey
Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Polyclonal
Form	Liquid
Concentration	1mg/ml
Storage	Aliquot and store at -20°C (valid for 12 months). Avoid freeze/thaw cycles.
Shipping	Ice bags
Buffer	Liquid in PBS containing 50% glycerol, 0.5% protective protein and 0.02% New type preservative N.
Purification	Affinity purification

Application

Dilution Ratio	WB 1:500-1:2000,IHC 1:100-1:300,ICC/IF 1:50-1:200,ELISA 1:5000-1:20000
Molecular Weight	20kDa

Antigen Information

Gene Name	RPL10L
Alternative Names	RPL10L; 60S ribosomal protein L10-like
Gene ID	140801.0
SwissProt ID	Q96L21
Immunogen	The antiserum was produced against synthesized peptide derived from human RPL10L. AA range:151-200

Background

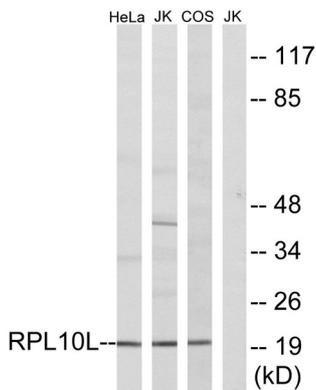

This gene encodes a protein sharing sequence similarity with ribosomal protein L10. It is not currently known whether the

encoded protein is a functional ribosomal protein or whether it has evolved a function that is independent of the ribosome. This gene is intronless. [provided by RefSeq, Jul 2008],function:May play a role in compensating for the inactivated X-linked gene during spermatogenesis.,miscellaneous:This gene has no introns in its coding regions, and therefore was most likely produced by retrotransposition of the original X-linked gene during evolution.,similarity:Belongs to the ribosomal protein L10e family.,tissue specificity:Testis specific.,

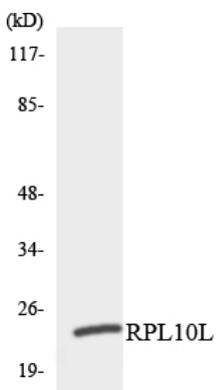

Research Area

Ribosome;

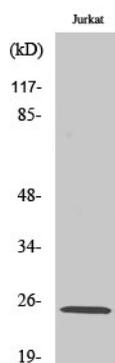

Image Data

Western blot analysis of lysates from Jurkat, COS7, and HeLa cells, using RPL10L Antibody. The lane on the right is blocked with the synthesized peptide.

Western blot analysis of the lysates from HUVEC cells using RPL10L antibody.

Western Blot analysis of various cells using Ribosomal Protein L10L Polyclonal Antibody diluted at 1: 1000
