
Product Name: RAIDD Rabbit Monoclonal Antibody**Catalog #: AMRe02517**

For research use only.

Summary

Description	Recombinant rabbit monoclonal antibody
Host	Rabbit
Application	WB,IP
Reactivity	Human
Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG
Clonality	Monoclonal
Form	Liquid
Concentration	0.5mg/ml. The concentration of this product may be batch-dependent.
Storage	Aliquot and store at -20°C (valid for 12 months). Avoid freeze/thaw cycles.
Shipping	Ice bags
Buffer	50mM Tris-Glycine(pH 7.4), 0.15M NaCl, 40% Glycerol, 0.01% Sodium azide and 0.05% protective protein
Purification	Affinity Purification

Application

Dilution Ratio	WB 1:500-1:1000,IP 1:20-1:50
Molecular Weight	Calculated MW: 23 kDa; Observed MW: 23 kDa

Antigen Information

Gene Name	CRADD
Alternative Names	CRADD; MGC9163; RAIDD; Death adaptor molecule RAIDD; Death domain containing protein CRADD
Gene ID	8738
SwissProt ID	P78560
Immunogen	A synthetic peptide of human RAIDD

Background

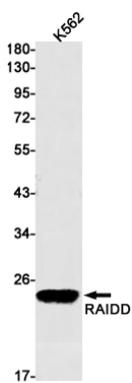

The receptor interacting protein RIP is a death domain-containing serine/threonine kinase which associates with FAS or the

TNF-R1 binding protein TRADD. RAIDD (RIP-associated ICH-1/Ced-3 homologous protein with a death domain) has been identified as a RIP binding protein that also associates with members of the caspase family, providing a link between activation of the TNF-Rs and the triggering of the cysteine protease cascade. The amino-terminal domain of RAIDD shares significant homology with the prodomain of ICH-1 and mediates the binding of RAIDD to this cysteine protease.

Research Area

Cell Biology

Image Data

Western blot analysis of RAIDD in K562 lysates using RAIDD antibody.
