

Product Name: CPT1A Rabbit Monoclonal Antibody**Catalog #: AMRe21112**

For research use only.

Summary

Description	Recombinant rabbit monoclonal antibody
Host	Rabbit
Application	WB,IHC,ICC/IF,ELISA,IP
Reactivity	Human,Mouse,Rat
Conjugation	Unconjugated
Modification	Unmodified
Isotype	IgG,Kappa
Clonality	Monoclonal
Form	Liquid
Concentration	0.3mg/ml. The concentration of this product may be batch-dependent.
Storage	Aliquot and store at -20°C (valid for 12 months). Avoid freeze/thaw cycles.
Shipping	Ice bags
Buffer	PBS, 50% glycerol, 0.05% Proclin 300, 0.05%protective protein
Purification	Protein A

Application

Dilution Ratio	WB 1:2000-1:10000,IHC 1:200-1:1000,ICC/IF 1:200-1:1000,ELISA 1:5000-1:20000,IP 1:50-1:200
Molecular Weight	Calculated MW:88kD;Observed MW:88kD

Antigen Information

Gene Name	CPT1A CPT1
Alternative Names	Carnitine O-palmitoyltransferase 1, liver isoform;CPT1-L;Carnitine O-palmitoyltransferase I, liver isoform;CPT I;CPTI-L;Carnitine palmitoyltransferase 1A;
Gene ID	1374.0
SwissProt ID	P50416
Immunogen	Recombinant protein of human CPT1A

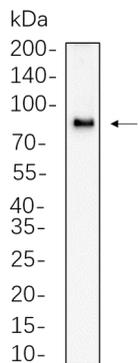

Background

Cell localization:Mitochondrion outer membrane.The mitochondrial oxidation of long-chain fatty acids is initiated by the

sequential action of carnitine palmitoyltransferase I (which is located in the outer membrane and is detergent-labile) and carnitine palmitoyltransferase II (which is located in the inner membrane and is detergent-stable), together with a carnitine-acylcarnitine translocase. CPT I is the key enzyme in the carnitine-dependent transport across the mitochondrial inner membrane and its deficiency results in a decreased rate of fatty acid beta-oxidation. Alternatively spliced transcript variants encoding different isoforms have been found for this gene. [provided by RefSeq, Jul 2008],

Research Area

Image Data

SKOV3 whole cell lysates were separated by 10% SDS-PAGE, and the membrane was blotted with CPT1A Rabbit Monoclonal Antibody(1:1000). The HRP-conjugated Goat anti-Rabbit IgG(H + L) antibody was used to detect the antibody.
